Folding Sliding Door

Exterior Folding Sliding Doors are without doubt the new vogue in indoor/outdoor living today. Perfect for connecting or partitioning an outdoor area, folding doors open and close effortlessly and stack unobtrusively to create wide open vistas.

Designs utilise the innovative Brio Top Roller Track System for smooth operation, ease of cleaning with locking technology to ensure panels remain set. Doors can be supplied outward opening from either the left, right or both sides. A unique Floating Door System is available on 4, 6 and 8 leaf units allowing door leaves to stack to the left, right or float in the centre. We offer the single largest folding screen on the market ideal for opening a whole facade in swimming pools and outdoor entertaining areas. Folding Doors are available with Contemporary or Traditional profiling to ensure consistent aesthetics throughout the property.

Suggested Specification:

- Paint Finish: RAL 9016 Traffic White • Ironmongery: Satin Chrome • Bar Pattern: None • Unit Spacer: Silver • Why not try: A Floating Door Model
