Bereco

OUR WINDOWS DON'T CO2T THE EARTH

In the last 15 years Bereco have supplied over **190,000** wooden windows and doors saving in excess of **49 million kgCO2e*** being emitted into our atmosphere, the equivalent of taking over **16,000** cars off our roads.

REDUCING YOUR CARBON FOOTPRINT

300 billion tons of carbon are stored in our forests across the world. When harvested to make wooden windows and doors the wood retains the carbon store making them carbon negative. You can **reduce your carbon footprint** by **160kgs CO2e*** for every Bereco timber window and door you buy rather than a uPVC window or door.

HELPING THE WORLDS FORESTS TO GROW

Bereco make a conscious choice to supply our wooden windows and doors made from nothing but **FSC® 100% certified timber**. For Bereco FSC® 100% certified redwood and hardwood is the only way we can ensure that our products help in the fight against deforestation.

PROTECTING OUR PLANET

Every 100 windows and doors purchased from Bereco saves 1 acre of rainforest. For every window and door you buy from Bereco **we donate £1 to the 'Buy an Acre' scheme from World Land Trust.**

INVEST IN YOUR HOME

Timber windows have the **lowest lifetime cost** in comparison to uPVC windows, with a life expectancy of around **60 years** compared to just 25-35 years* from uPVC.

ENERGY EFFICIENT

Our energy saving window and door designs and high performance glazing give u values that are up to **82% better** than the current building regulations meaning the average 3 bedroom home can save the equivalent of **£212 on heating bills** each year.

YOUR HEALTH AND WELLBEING

With exposure to noise over long periods of time being linked to health issues such as heart disease and dementia the noise rating should not be overlooked. Our windows with 24mm double glazing offer a **sound reduction of 33dB** and our specially designed acoustic double glazed units offer sound reduction of up to **42dB**, ideal for properties with traffic noise or that are close to an airport.
